NEWS FROM CALIFORNIA.

(From the Mobile Herald, Sept 14).

U. S. SHIP PRINGETON, ?
PENSACOLA, Sept. 10, 1846. {
hip arrived here this evening, four days from
hip arrived here in answer to those sent from

ceiving or sending a minister until the Cuntry—land and sea. The bearer of the Mexican despatches was a young Naval Lieutenant, accompanied by an English gentleman as interpreter.

The Princeton immediately received orders, and should have sailed yesterday, but she was detained by a court martial presiding on board, the officer of the steamer forming part of the court. However, it was fortunate, for about 6 P. M. yesterday, another despatch arrived from Mexico, and the Princeton will mo doubt sail today. Lieut Furviance goes in the Princeton as bearer of despatche to Washington, and she will no doubt await his return at Pensacola. I have no doubt that they are of the utmost importance, and will either put a stop to the war, or call for more active measures on the part of the naval force, at all events. The Potomac sailed last Monday for Pensacola, her crew being very bad with the active. A prize brought from Hamburg sailed at the same time for New Orleans. The commander received a letter from Capt Carpender, of the Truxton. He writes from Tuxpan. He writes that the health of the officers and crew is excellent—that they are well treated by the Mexicans, and their private property respected. His letter is written subsequent to the destruction of the brig, so that the officers of the Princeton were decived by the soldiers at the month of the river, who informed them that our prisoners had been sent to Tampico. I perceive that the New Orleans papers have not spared the squadron for our abortion, as they call it, at Alvarado, but the Commodore, I bave no doubt, has fully justified his conduct to the department—but failures in time of war are productive of many sobriquets, that are long remembered, and Commodore Alvarado Connor is as warmly and indelibly placed upon our list of Post Captains, as if he was thus baptised in all the churches of Christendom. However, should the war sent to Tampico. I have no doubt the despatches will be published in few days after the receipt of thes. Se you mustbe on the first part of t

Naval Intelligence.
Finacola, Sept. 12, 1846.
The Princeton arrived at Pensacola yesterday, four days and a half from Vera Cruz, with important despatches from the Mexican Goyernment. She sais immediately for Chagres, with orders for the Pacific Squadron.

Palmer; 3d do Edw. Faron; carpenter, James McDonnell; acting gunner, Charles S. McLane; acting boatswain, Henry N. Brooka. Lieutenant S. T. Hunter, bearer of despatches to the Pacific.

Incidents of the War.

CHARACTERISTICS OF GENERAL TAYLOR.—In a recent letter our correspondent mentioned a visit which he paid Gen. Taylor in his tent at Camargo. We were unable to give the whole of the letter at the time, but now an-CAMARGO, August 31, 1846.—Gen. Taylor is singular in

Trial of Spences for the Murder of his Wife in Jersey City.

COURT OF OYTH AND TERMINER, AUDION CO., N. J.

efore Chief Justice Hornblower, and Judges John Ton-nelle, Jr. James M'Donnell, John Griffith, John G. Speer, C. Van Winkle, and Geo. C. DeKay.

Wirness.—Certainly—I merely give my opinion. Witness underwent a cross-examination in relation to the different cases of inanity referred to in his direct testimony.

The Depende asked witness, if in a case where a man had had sufficient evidence of the infidelity of his wife—would it not be sufficient to bring on a paroxysm of insanity?

Witness.—Certainly. Griffiths, who murdered Coit, and who is now a patient with me\_committed the act while under a paroxysm of insanity, brought on through a fit of jealousy.

Dr. A. Sidney Jones, of New York, examined—the testifield that he is a practising physician in New York since 1829—he visited the hospitals of Faris, Italy, London, and several establishments in Europe. A large number of cases came under his observation in New York—about 300. On the subject of hereditary insanity, witness corroborated the testimony of Dr. Brigham. He believed that like consumption—the disease was hereditary—and so far as his experience went, he fully concurred in the testimony given by Dr. Brigham.

The Depende he visited by the Court House clock; and stated that by New York time it was exactly 12½ o'clock, hoping that, though his honor may differ with them as to New York law, he would not as to New York law, he would not as to New York law, he would not omit to state, that though he happened to differ with the defence on certain points having reference to the laws of New York, he entertained a high opinion of the New York udiciary.

Isaac Fielder testified that on the lat of July last, he saw a man in the neighborhood of the ferry, with large whiskers; he took him to be a sane man; he believed he was not the prisoner at the bar; he was not buttoned up to the chin.

Isaac Fielder testified that on the lat of July last, he saw a man in the neighborhood of the ferry, with large whiskers; he took him to be a sane man; he believed he was not the prisoner at the bar; he was not buttoned up to the chin.

Isaac Fielder, cabinet maker, corroborated the testimony of the former witness; he had bee

drawn.

Thostas Chegan, who had also been present on the consistency withthe three last witnesses, stated he did not know who the man was, and that he took no particular

special this not feel conscious of what they had done during the parcyway, he knew of two cases, also, where the patient was conscious of the set, and had assigned the motives for it.

By an extra from the Winysh (Georgetown, S. C.)
Observer, September 16th, we learn that another destructive fire has visited that town. The Observer says:
The fire originated in the millinery store of Mrs. E.
Mc Williams, which ins few minutes was on fire in every
part. This was a large building, and all the adjacent
buildings being of wood, and large, were in a few
moments wrapped in flames. So rapid was the progress
of the fire, that by 2 o'clock this morning the entire
square of the town, with the exception of two buildings,
was in ashes. The fire extended from Bay to Princess
street, and from Scriven to Queen street—leaving Dr.
Prior's residence, and the library opposite the bank, alone
standing. About thirty building in all were destroyed.
A party of "Native Americans," a delegation from the
Winnebago tribe, left this morning on the Superior en
route for Washington, to have a talk with their great
pale-faced father. These "gentlemen without hats,"
were painting themselves for breakfast when we saw
them. They presented a very fair appearance for Indians
who have become contaminated by mfxing more or less
with civilization—Milecaukie Sentinet, 15th inst.

From Martiniqe.—A gentleman who left Mar-

with civilization — Milwaukie Sentinel, 10th inst.

From Martiniqe.—A gentleman who left Martinique the 23d uit, for Wilmington, N. C., in the French bark Havre and Martinique, arrived in this city on Tuesday night from Wilmington. He confirms the intelligence we yesterday extracted from the New Yerk Herald, of the smiling of French vessels of war to the Gulf of Mexico. They left Fort Royal the day before he sailed, and the following are the names of the vessels:—Frigate Andromede of 34 guns. bearing the pendant of Rear Admiral La Flace. Sloops Blonde and Nayade of 28 guns each. Brig Hussard- and Pylades of 23 guns each. Steamer Connerre 14 Faixhan guns. They were to be joined by one or two more vessels at Ean Domingo.—Savensah Georgian, Sept. 17.
